Posilux Light Kits

Transport rules now say that over-dimension vehicles must have markers to show the width and at night must have the appropriate lighting. The Posilux Light Kits are designed to suit this purpose. Posilux Over-Dimension Light Kits are easy to mount to most tractors and include all necessary components. The arms extendable from 400 to 700mm making them suitable for the widest of agricultural machinery allowed on the road. See instore or give us a call.
